Google Cloud

IST faculty & researchers: Google wants to give *you* and *your* students access to *our* cloud for coursework or research. Come to our tech talk!

Teaching courses or engaged in research where your students code or need cloud resources?Join us for a technical overview of cloud computing followed by a tour of Google Cloud (compute, storage, networking, serverless, data analysis, and Machine Learning) products to see what is available for faculty & students. Also see sample API code.

Learn about education grants giving you and your students access to our cloud for the classroom or research lab, our career readiness program, and other education resources. For more details, see: `bit.ly/2KBc3Uq`
